Be Part of the 60% Saving With the Smart Energy Plan

60% of customers on the Smart Energy Plan are saving money compared to the standard residential rate. Avoiding spikes in energy use along with shifting and staggering the use of big appliances are good ways to maximize your savings potential.

My Account has personalized tips for you! Log in today to learn more ways to save.

Stagger your use of major appliances

Avoid using large appliances and electronics—like air conditioners, dishwashers, washers, dryers, and vacuum cleaners—at the same time.
